TESTIMONY TO ITS EXCELLENCE.

For the student, the professional man, the teacher, the school, the family, in fact, for every one who cares to add to his store of knowledge, we consider this splendid work is eminently suited.—*Canada School Journal, Toronto, April,* 1884.

There should not be a school in the Dominion, where access cannot readily and constantly be had to it.—*The Canada Educational Monthly, Toronto, Oct.,* 1881.

As a defining, orthographic and pronouncing dictionary, the New Edition of Webster's Unabridged may be regarded as a standard authority in the English Language.—*The Educational Record, Montreal, Aug.,* 1884.

It has always been considered a standard authority, but its value as such has been vastly increased by constant revision and the addition of much new matter. It is a work that should be in every library—*The Mail, Toronto, February* 5, 1886.

It may be regarded as the one final authority, safely to be relied on.—*The Week, Toronto,* 1884.

It has long since established its claim, past the power of even envy to dispute, to a place in the very highest ranks of such publications. Those who have given it the most careful consideration will be the most enthusiastic in its praise.—*The Globe, Toronto, July,* 1884.

The best and most useful Dictionary of the English language ever published.—*London Times.*

In journalistic work I have long kept close company with Webster's Unabridged, and regard it as the one great Dictionary of the English language.—*J. E. B. McCready, Esq., Editor Daily Telegraph, St. John, N. B., July,* 1885.

I know of no other Dictionary which places within easy reach of the ordinary purse, such a bounty of useful and really necessary information, and which is at the same time so complete and thorough an exposition of our noble language.—*Hon. John V. Ellis, M. P. P., Editor Daily Globe, St. John, N. B., August,* 1885.

Webster is **Standard Authority** with the **U. S. Supreme Court** and in the **Government Printing Office.** It is recommended by the **State Superintendents of Schools** in **36 States,** and by the leading **College Presidents** of the U. S. and Canada. The sale is **20** to **1** of any other series. Every State purchase of Dictionaries for Schools has been of Webster.

Explanation of the Articles in the Calendar.

These pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

MOON'S PHASES.—This Table gives the times (standard 75th meridian)* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this Table are given the standard times at which twilight begins in the morning and ends in the evening, *i. e.*, the times when the Sun's centre is 18° below the horizon.†

NOTE.—Standard times* are given in all columns headed Toronto or Quebec. In calculating, the mean time at these places has been taken at Toronto as 17m. 34s. slower, and at Quebec as 14m. faster than standard.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other atitude is required, the number given in the column should be corrected by means of the following Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees	—5′16″	—3′36″	—1′51″	0′00″	+1′57″	+ 4′0″	+6′10″	+8′29″	+10′53″
2nd Correction for each minute of latitude	+ 1″.7	+ 1″.8	+ 1″.9	+ 2″.0	+ 2″.1	+ 2″.2	+ 2″.3	+ 2″.4	+ 2″.5

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

Thus for latitude 43° 20′...1st correction = —3′ 36″ — 2nd correction + 1.8 × 20 = + 0′ 36″
" " 47° 40′... " " = +4′ 0″ — " " +2.2 × 40 = + 1′ 28″
" " 45° 10′... " " = 0′ 0″ — " " +2.0 × 10 = + 0′ 20″

THE PLANETS.—The local mean times* of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45°.

The times* of the SUN'S RISING AND SETTING† are given for the upper limb, and are corrected for refraction for Toronto and Quebec,

The standard times* both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

The column, SUN ON MERIDIAN, gives the time* that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time* at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian twice on October 10.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

* In the present Almanac, the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto and Quebec only, the standard times at other places differing not much in latitude from one of these places may be obtained with sufficient accuracy for ordinary purposes, by adding four minutes for every degree west of Toronto or Quebec, and subtracting four minutes for every degree east of Toronto or Quebec.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a star, *add* the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Eclipses.

In the year 1889 there will be three Eclipses of the Sun, and two of the Moon.

1.—A Total Eclipse of the Sun, January 1st, 1889, visible as a total Eclipse just before sunset in Manitoba, and as a partial Eclipse in some other portions of the Dominion.

The line of Central Eclipse passes through :—

Longitude	Latitude
100° 41′ W.	49° 3′ N.
94 18 "	52 16 "

At Toronto the Eclipse begins at 16h. 26m. 4 Standard time. Angle of first contact from the North Pole 80° towards the West ; for direct image.

At sunset .286 of the Sun's diameter will be eclipsed.

The Eastern standard time of first contact for places near Toronto, may be found from the following formulae*.

$$\cos\omega = 1{\cdot}54924 - [0{\cdot}22898]\sin l + [9{\cdot}85767]\cos l \cos(337^\circ\,57'\,44'' - \lambda)$$

$$t = 16\text{ h. }2\text{m. }5\text{ s.} - [3{\cdot}60351]\sin\omega + [2.90050)\sin l - [3{\cdot}86583]\cos l \cos(232^\circ\,52'\,13'' - \lambda)$$

Contact on the Sun's limb $\omega + 6^\circ\,40'$ from the North towards the West.

* In these formulæ the co-efficients of the various terms, are the numbers whose logarithms are the numbers within the brackets [ ]; also, l denotes the *geocentric* latitude, and λ the longitude west of Greenwich.

THE YEAR.

The length of the year is strictly expressed by the space of time required for the revolution of the earth round the sun—namely, 365 days, 5 hours, 48 minutes, 49 seconds, and 7 tenths of a second, for to such a nicety has this time been ascertained. But for convenience in reckoning, it has been found necessary to make the year terminate with a day instead of a fraction of one, lumping the fractions together so as to make up a day among themselves. About forty-five years before Christ, Julius Cæsar, having, by the help of Sosigenes, an Alexandrian philosopher, came to a tolerably clear understanding of the length of the year, decreed that every fourth year should be held to consist of 366 days, for the purpose of absorbing the odd hours. The arrangement he dictated was a rather clumsy one. A day in February, the sixth before the calends of March (*sextilis*), was to be repeated in that fourth year; and each fourth year was thus to be *bissextile*. It was as if we were to reckon the 23rd of February twice over. Seeing that, in reality, a day every fourth year is too much by 11 minutes, 10 seconds, and 3 tenths of a second, it inevitably followed that the beginning of the year moved onward ahead of the point at which it was in the days of Cæsar; in other words, the natural time fell behind the reckoning. From the time of the Council of Nice, in 325, when the vernal equinox fell correctly on the 21st of March, Pope Gregory found in 1582 that there had been an over-reckoning to the extent of ten days, and now the vernal equinox fell on the 11th of March. To correct the past error, he decreed that the 5th of October that year should be reckoned as the 15th, and, to keep the year right in future, the overplus being 18 hours, 37 minutes and 10 seconds in a century, he ordered that every centurial year that could not be divided by 4 (1700, 1800, 1900, 2100, 2200, &c.) should *not* be bissextile, as it otherwise would be; thus, in short, dropping the extra day three times every four hundred years. The Gregorian style, as it was called, readily obtained sway in Catholic, but not in Protestant countries. It was not adopted in Britain till the year 1752, by which time the discrepancy between the Julian and Gregorian periods amounted to *eleven* days. An Act of Parliament was passed, dictating that the 3rd of September that year should be reckoned the 14th, and that three of every four of the centurial years should, as in Pope Gregory's arrangement, not be bissextile or leap years. It has consequently arisen—1800 not having been a leap-year—that the new and old styles now differ by *twelve* days, our first of January being equivalent to the 13th old style. In Russia, alone, of all Christian countries, is the old style retained; wherefore it becomes necessary for one writing in that country to any foreign correspondent, to set down his date thus: $\frac{\text{12th}}{\text{24th}}$ March, or $\frac{\text{25th September}}{\text{7th October}}$; or, it may be, $\frac{\text{28th December, 1880.}}{\text{9th January, 1881.}}$

CANADIAN TARIFF OF CUSTOMS.

Revised and Corrected to latest date.

NOTE.—As far as possible articles have been grouped under general headings, as Iron and Steel Goods of all kinds under "Iron and Steel Manufactures;" all kinds of Oil, Fish, Vegetable or Mineral, under "Oils;" those relating to Vehicles, under "Carriages," and so on. And to avoid the enormous bulk of duplicate or triplicate references the principal word only in each article has been taken for reference, as "Coats, Fur," under "Fur;" "Wax Candles," under "Candles;" "Plated Cutlery," under "Cutlery," and so on. We believe that the table will be found easy of reference and thoroughly reliable.

The Militia is divided into Active and Reserve land and marine force. The Active land and marine force is composed of men raised either by voluntary enlistment or by ballot, (though recourse to the ballot has never hitherto been necessary, applications to the Department for permission to enrol Volunteer Corps having always been in excess of the quota allowed); and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being. The period of service is three years.

The strength of the Active Militia (including a Permanent Force, limited by the present Militia Act to 1000 men) was, in 1888, as follows :—Cavalry, 1,987; Field Artillery, 1,440; Garrison Artillery, 2,401; Engineers, 179; Infantry, 32,145; Total, 38,152.

COPYRIGHTS IN CANADA.

Copyrights may be secured by any person domiciled in Canada, or any part of the British possessions, or being a citizen of any country having an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart, musical composition, or of any original painting, drawing, design, &c., upon the following conditions :—The books, maps, &c, must be published in Canada; and in the case of a work of art, it must be produced in Canada, either prior to or simultaneously with its production elsewhere. Two copies of books, maps, &c., must be sent to the Minister of Agriculture; and in the case of paintings, statuary, &c., a written description of the same must be furnished.

The fee for registering a Copyright is one dollar, and it runs for twenty-eight years. It may also be renewed for a further term of fourteen years upon the same conditions.

An Interim Copyright may be obtained, pending the publication of any literary, scientific or artistic work, by depositing in the Office of the Minister of Agriculture a copy of the title, or a description of such work. The Interim Copyright runs for one month, and the fee is fifty cents. The work, however, must be published inside the time specified, or the author incurs a penalty not exceeding one hundred dollars.

The penalty for infringing a Copyright is the forfeiture of every copy of the work to the owner of the Copyright, and the payment of a fine of not less than ten cents, nor more than one dollar, for every copy found in possession

COLLEGIATE INSTITUTES AND HIGH SCHOOLS.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees are all appointed by the City Councils, except where there is only one school in the County. The head master must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Besides fees, local rates must be raised. Every High School with two qualified teachers receives a fixed amount of $400, and also a certain sum on salaries of teachers, general equipment, suitability of school premises and attendance. High Schools which have an average attendance of 60 pupils, may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation in the Universities. There were 89 High Schools and 23 Collegiate Institutes, with 17,459 pupils, in Ontario in 1887. J. E. Hodgson, M.A., and John Seath, B.A., Inspectors of High Schools.

PUBLIC SCHOOLS.

Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality. There were 5,506 Public Schools, with 493,212 pupils, in Ontario in 1887.

EDUCATIONAL MUSEUM.

Connected with the Education Department is a Museum, containing specimens of school apparatus and furniture, a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts. The Museum is freely open to the public from 9 a.m. to 5 p.m.

TOTAL NUMBER OF EDUCATIONAL INSTITUTIONS

Of all kinds reported by the Education Department as in operation in the Province of Ontario during 1887 was 5,624, attended by 512,000 pupils, and expending upwards of $4,500,000 in their support.

POSTAL INFORMATION.

LETTER RATES, ETC.

Canada.—Letters posted in Canada, addressed to any place within the Dominion 3 cents per ½ oz. If unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If liable to more than one rate of postage, and insufficiently prepaid, the letter will (provided one full rate of 3 cents be paid) be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent per ½ oz., and must be prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by Postage Stamps.

Post Cards.—From any place in Canada to any other place in Canada or to the United States, 1 cent each. British and Foreign, 2 cents each.

United Kingdom.—Postage on Letters, 5 cents per ½ oz., whether by Canadian or New York Steamers. If sent unpaid, double postage will be charged.

Newfoundland.—Letters and post cards, same rates and regulations as to United Kingdom. Other matter same rates and regulations as for domestic post.

Bermuda Letters, 5 cts. per ½ oz. Newspapers and printed matter generally, 1c. per 2 oz.

United States.—The rate on Letters to the United States is the same as in Canada, and at least one rate must be prepaid.

REGISTRATION OF LETTERS.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration (use Registration Stamp), in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada or British North America	2 cents.
On Letters for the United States	5 "
On Letters for the United Kingdom	5 "
On Parcels, Patterns or Samples, in Canada	5 "
On Book Packets and Newspapers to United Kingdom	5 "

Both the Postage charge and Registration fee must in all cases be prepaid by stamp.

Registered Letter Stamps have been issued of the denominations of 2 and 5 cents, which may be obtained at any Stamp Agency.

Registration Stamps cannot be used in payment of postage, nor can Postage Stamps be used in payment of Registration fees.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

BOOK POST.

A Book Packet may contain any number of separate books, publications, works of literature or art, maps or prints, photographs, daguerreotypes when not on glass, or in frames containing glass; and the books, maps, &c., may be either written, printed or plain, or any mixture of the three, provided that no letter be enclosed or any writing intended to serve the purpose of a letter; and may be either British, Colonial or Foreign. Limit of weight for domestic post 5 lbs.; for foreign post 4 lbs. 6 oz. Limit of size two feet in length, or one foot in width or depth.

Book Packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

The rate on Book Packets between any two places in Canada, and to Newfoundland is 1 cent per 4 oz., which must be prepaid by stamps.

The rate to Great Britain and the United States is 1 cent per 2 oz.

MISCELLANEOUS MATTER.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of a rate of 1 cent per 4 oz. The limit of weight is 4 lbs. The regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom by Book Post.

On all pamphlets, occasional publications, printed circulars, prices current, hand-bills, exhibitors' entry tickets for Dominion or Provincial Exhibitions, book and newspaper manuscripts, printers' proof sheets, whether corrected or not; maps, prints, drawings, engravings, lithographs, photographs, when not on glass or in cases containing glass; botanical and entomological specimens, when properly put up, so as to prevent injury to the contents of the mails; sheet music, whether printed or written; documents wholly or partly printed or written, such as deeds, insurance policies (including renewal receipts when attached to the policies), voters' lists, militia and school returns, or other documents of like nature, the rate of postage is one cent for each four ounces; provided that no letter or other communication intended to serve the purpose of a letter be sent or inclosed in any such package or thing mentioned, and that the same be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision; if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged; and that the postage rate be prepaid by postage stamp or stamped post bands or wrappers in all cases. Limit of weight, 4 lbs.

No packet of miscellaneous matter can be transmitted by mail if it exceed 24 inches in length or 12 inches in width or depth.

Legal and commercial papers generally (including Bank Pass-Books) are liable to *letter rate* of postage, except when sent as parcels by Parcel Post, and the exceptions above given to matter of that class are restricted to the documents specified, such as Deeds and Insurance Policies.

NEWSPAPERS AND PERIODICALS.

Newspapers and periodicals *printed and published in Canada*, and issued not less frequently than once a month from a known office of publication or news agency, and addressed and posted to and from the same for transmission by mail to regular subscribers or news agents in Canada, the United States and Newfoundland, are sent free; if addressed to Great Britain, they may be posted by the same on prepayment of a rate of one cent for each pound weight in bulk, or fraction of a pound; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, and the postage rate thereon prepaid by the publisher or news agent, being the sender thereof, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, other than those addressed to regular subscribers or news agents, and *bona fide* specimen copies, from office of publication or news agency, including all newspapers and periodicals published less frequently than once a month, the rate will be *one cent per 4 oz.*, to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing less than 1 oz. each may be posted singly, if prepaid by Postage Stamp ½ cent each.

TRANSIENT NEWSPAPERS.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canada newspapers sent from the office of publication, and British newspapers posted by news agents for regular subscribers* in Canada. When addressed to any place within the Dominion, Newfoundland, or the United States, they must be prepaid the following rates by Postage Stamp:—

If weighing less than 1 oz., half a cent each.

If weighing over 1 oz., one cent per four oz. or fraction of four oz.

On transient newspapers addressed to the United Kingdom the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canada newspapers *posted from the office of publication* to subscribers in the United Kingdom—if to be sent in the Mails forwarded *via* New York or Boston, must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz.; but if sent by Canada Packet, such papers may pass, as now, on prepayment by the publisher, at the rate of one cent per pound. All newspapers and periodicals prepaid at the bulk rate of 1 cent per lb., must be stamped "Prepaid by Publisher," at the Post Office where the newspaper or periodical is mailed. The English Post Office requires *each newspaper or periodical* to be stamped. If sent in packages the English Post Office declines to accept them.

PATTERNS OR SAMPLES WITHIN THE DOMINION.

Patterns and Samples of Merchandise and Goods for sale, not exceeding 24 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent per 4 oz., under the following regulations:

If such rate be not fully prepaid by the stamps affixed, the packet to be rated with the deficient postage, and a fine of 5 cents in addition.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered by affixing thereto a registration stamp of the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices, may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

UNITED KINGDOM AND UNITED STATES.

Patterns and Samples of Merchandise, when addressed to places in the United Kingdom and United States, must not exceed 8 oz. in weight, and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

USEFUL HINTS.

Register all valuable letters. Transmit money by Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County* and *Province* in which the office addressed is located. Place stamp on the right hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered.

PARCEL POST.

The charges on Parcels by the Parcel Post to places within the Dominion, is 6 cents for every 4 oz. or fraction thereof (with 5 cents additional if Registered). No letter must be inclosed; if any discovered, the amount paid will be forfeited, and the Parcel charged at unpaid Letter rates. No Parcel must exceed 5 lbs. in weight, and must be prepaid by stamps.

Eye-glasses and spectacles may be sent by mail when properly put up and prepaid by Parcel Post.

PARCEL POST WITH THE UNITED KINGDOM.

An arrangement has been entered into with the Post Office of the United Kingdom for a Parcel Post, under which closed Parcels not exceeding 4 lbs. in weight may be posted in the United Kingdom, when addressed for delivery at certain Post Offices in Canada, and may in like manner be posted at those Canadian Post Offices for destinations in the United Kingdom.

The Parcels exchanged with the United Kingdom will pass exclusively in the Weekly Mails conveyed by the Canadian Steamers to and from the St. Lawrence in Summer and Halifax in Winter, and such Parcels cannot be sent *via* New York.

The Parcel Post with the United Kingdom will be governed by the following regulations:—

1. A Parcel must not exceed 4 lbs. in weight.
2. The dimensions of a Parcel must not exceed 2 feet in length by 1 foot in width or depth.
3. A Parcel must not contain any explosive, combustible, or dangerous articles, nor any article of a perishable or fragile character, nor liquids or matters likely to injure other Parcels or mail transmissions.
4. All Parcels must be securely and substantially packed and closed.
5. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the Parcel is intended.
6. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel, also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the Parcel to which it relates.

As Parcels from the United Kingdom will be liable to Canadian Customs duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed*, it has been necessary in commencing this Parcel Post with the United Kingdom, to limit its operation for the present in Canada to Parcels addressed to or posted at places where Officers of the Customs are stationed.

For the purposes of the Parcel Post the Dominion is divided into 4 sections of about 1,000 miles each, from East to West, on the line from Halifax, Nova Scotia, to Victoria, British Columbia, thus:—

PARCEL POST CHARGE.

Sections.	Rate per lb. or fraction of a lb.
A.—Maritime Provinces and Quebec	30 cts.
B.—Ontario	35 "
C.—Manitoba and N. W. Territories	40 "
D.—British Columbia	45 "

Prepayment by postage stamp is required, but when a Parcel is posted in the United Kingdom for either of the sections B, C, or D, and by inadvertence prepaid at a lower rate than that applicable to the particular section addressed, the Parcel will come to Canada, liable to collection by the Canada Post Office on delivery, of the deficient postage, and it will moreover be optional with the Canada Post Office to impose a fine in addition.

FIFTH CLASS MATTER.

Postage rate one cent per ounce or fraction of an ounce, to be prepaid by postage stamp. Miscellaneous articles of merchandise, including seeds, bulbs, etc., to United States, and generally all matter permitted to pass by mail in Canada, which is not of the nature of a letter, and therefore subject to letter rate of postage, and not entitled to be posted at a lower rate than 5th class under one or the other classes, may pass as 5th class when addressed to any destination within the Dominion or United States. 5th class matter must be so packed or put up as to be open to examination of contents and must not exceed 4 pounds in weight, nor 2 feet in length by 1 foot in width or depth. When passing between Canada and the United States it will be subject to Customs regulations if liable to duty The registration charge on 5th class matter is 5 cents in addition to postage.

In sending money by mail it is always best to transmit by Money Order, if possible.

THE LAW SOCIETY OF ONTARIO.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. By Revised Statutes of Ontario, c. 138, the Benchers theretofore appointed, from time to time, by their own body, are made, exclusive of *ex-officio* members, elective by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elective*, thirty in number, being chosen by the ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head-quarters of the Society, in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*—W. B. Heward.

COURTS FOR THE TRIAL OF CONTROVERTED ELECTIONS.—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts, by one of their Judges appointed in that behalf, are invested with special Jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually in Michaelmas Term and severally select, by a majority of votes, a Judge of their respective Courts to be placed on the rota for the trial of election petitions. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single judge presides, and an appeal lies to the Court of Appeal of the Province.

COUNTY COURTS—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed $200; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to $400; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to the Court of Appeal of Ontario.

COUNTY COURT SITTINGS AND COURT OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the county of York, in which county said Court is held four times, commencing on the first Tuesday in December and March, and the second Tuesday in May and September, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGES' CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions *may, with their own consent*, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by the said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists for Provincial Elections. The Voters' Lists for Dominion Elections are now settled by Revising Barristers under the Act of 1885.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Chancery Division. The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir J. L. Robinson, Bart. *Assistant*—F. A. Robinson.

DIVISION COURTS, for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. POST OFFICE SAVINGS BANK, CANADA.

Post Office Savings Banks in Ontario and Quebec are open daily for the receipt and repayment of deposits, during the ordinary hours of Post Office business.

The direct security of the Dominion is given by the Statute for all deposits made.

Any person may have a deposit account, and may deposit yearly any number of dollars, from $1 up to $300, or more with the permission of the Postmaster-General.

Deposits may be made by married women, and deposits so made, or made by women who shall afterwards marry, will be repaid to any such woman.

Deposits for children under 10 yrs of age may be made—

Firstly—by a parent or friend as trustee for the child, in which case the deposits can be withdrawn by the trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipts of both trustee and child.

Secondly—In the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years.

A depositor in any of the Savings Bank Post Offices may continue his deposits at any other of such offices, without notice or change of Pass Book, and can withdraw money at that Savings Bank Office which is most convenient to him.

Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the depositor pays in or withdraws money, and the sums paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

Each depositor's account is kept in the Postmaster-General's office, in Ottawa, and in addition to the Postmaster's receipt in the Pass Book, a direct acknowledgment from the Postmaster-General for each sum paid in is sent to the depositor. If this acknowledgment does not reach the depositor within ten days from the date of his deposit, he must apply immediately to the Postmaster-General, by letter, being careful to give his address, and, if necessary, write again, because the Postmaster's receipt or entry in the Pass Book is not sufficient without the further receipt for the money from Ottawa.

Every depositor must send his book once a year, viz., on the anniversary of his first deposit, for comparison with the books of the Department, and for insertion of interest. The book will be returned to him by next mail. At no other time should a depositor suffer his book to be out of his own possession.

When a depositor wishes to withdraw money, he can do so by applying to the Postmaster-General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post Office the depositor may have named in his application.

Interest at the rate of 4 per cent. per annum is allowed on deposits, and the interest is added to the principal on the 30th June in each year.

ATHLETICS.

The campaign was opened on the Queen's birthday, May 24th, when the Woodstock A. A. A. gave, as usual, a highly successful meet. Among the entries for the different events were some of Canada's best athletes. The programme consisted of bicycle and foot races, which were well contested; some very exciting finishes being the result.

At Peterborough on the same day were held the annual games of the P. A. A. A., a full programme was run off. A. Forrester and J. J. Moore, two entries from the Toronto Athletic Club, took first and second in nearly every run and jump.

The Stanley Lacrosse Club of Barrie also held a successful meet on this date, a good programme was presented. There were three events open to amateurs as follows :—200 yd. hurdle race; 440 yds. run, and a half mile run for the "Stanley Challenge Cup," and the championship of Simcoe. Frank W. Jackson was sent as a representative of the Toronto Athletic Club, and justified the confidence reposed in him by winning all three events.

The next fixture and the second in importance held in Canada through the year, were the 2nd spring Handicap games of the Toronto Athletic Club, which were held on their beautiful grounds at Rosedale, on June 23rd, before a large and fashionable audience. The entry list numbered 70; 42 of whom were actual competitors. The programme consisted of nine track and six field events. The features of the day were the great running of the club champion, Geo. M. Gibbs, the wonderful jumping of W. Armson, and the great backwards run of A. Forrester. Gibbs won the ¼ mile, 1 mile and 2 mile runs from scratch against big fields. Armson won the high jump from scratch with 5ft. 10½ in., to his credit. Armson has done 6 ft. in practice, and will, no doubt, be heard from in champion circles next season. A. Forrester astonished the audience by his marvelous backwards running, and his performance in this race places him far ahead of all runners at this style. The distance was 100 yds. which he covered in 14 seconds, thus lowering the worlds record by 1⅕ seconds.

The most important Athletic gathering of the year is the Canadian Championship meet which was held this year in Montreal, on September 29th. The following were returned as winners :—

100 yds. run—Won by F. Westing (Manhattan, A. C.) in 10⅕ seconds.

Throwing the hammer—Won by C. A. J. Queckburner (Staten Island A. C.) 98 ft. 11 inches.

This generally winds up the season as regards track racing, and the hardy athlete hangs up his "spikes" and takes down his snow shoes to prepare for the exhilirating sport of country snow shoe racing. Hockey, speed skating and tobogganing also form an important feature in Canadian sports.

Cross country racing has not been encouraged as much as usual this year, especially in Ontario. The Toronto Athletic Club having only 3 runs up to November, against 7 in the same time last year. The Y. M. C. A. Outing Club have had fortnightly runs all through the summer. The first of the season of the Toronto Athletic Club was run May 5th, over 5 miles of rough country, starting and finishing at Rosedale, and was won by F. W. Jackson from a field of 17—time 40.10; G. A. Strickland, second; R Cassels, Third. The second run of a week later was a four mile race from Rosedale to Eglinton, F. W. Jackson won in 25 minutes; Harold Jarvis second; and A. H. Cassels, third, by a foot. The third run was 5 miles starting and finishing at Rosedale, F. W. Jackson again won in 39.54; A. Forrester second, by 2 yds.; A. M. Burns, third; 16 made up the field. The winners of the cross country championship are: 1886, S. D. Jones, M. A. A. A.,—time 36.57½, at Toronto; 1887, F. Johnston, M. A. A. A. at Montreal, over a course half a mile short.

BASE BALL.

The base ball season was an unusually interesting one. Canadian clubs figured as members of two International leagues—the Eastern and the International. The former league as organized this year, included the cities of Belleville, Kingston, Watertown, and Oswego, N. Y. Towards the close of the season Oswego was forced to withdraw, and though efforts were made to continue the league's existence, the effort was not a success. The result of the season's play placed Kingston in the lead for the pennant, with a percentage of ·846.

The International's season was a brilliant one from a playing standpoint, but financially, it was a disastrous one to all the clubs with the exception of Buffalo. Syracuse and Toronto were the principal factors in the race, though closely pressed at different times by Hamilton and Rochester. The Torontos assumed the lead, which had hitherto been held by Syracuse, on August 17th, only to lose it beyond recovery in the following month.

The finish was a close, exciting one, resulting in the success of Syracuse. The complete table of victories and defeats for the eight clubs is :

	Syracuse.	Toronto.	Rochester.	Hamilton.	London.	Buffalo.	Troy.	Albany.	Won.	Per Centage.

CRICKET.

The season has been an eventful one, the visit of the American and Irish gentlemen teams having been the most prominent features. The loss of the International match was a severe blow to the Canadians, the latter being defeated by an innings and 87 runs. At the opening of the season it was confidently expected that the Canadians would make a bold bid for victory, but they never were in it, and suffered a crushing defeat. The team that represented Canada contained nine members of G. G. S. Lindsey's combination that visited England in 1887 and was probably the strongest eleven that ever represented the Dominion. The game was played July 4th and 5th on the grounds of the Toronto Cricket Club, and a large number of people witnessed the contest. The Americans (who by the way were all Philadelphians) had the good fortune to win the toss and made 205 before being disposed of. Out of this total W. Brockie, jr., made 51, D. S. Newhall (Captain), 32, not out W. Scott, 35 and J. A. Scott, 19. The bowling honors were carried off by E. R. Ogden who got 5 wickets for 94 runs. The Canadians only made 79 and 39; G. W. Jones, 22 and 6; H. Harley. 16 and 2; and A. C. Allan 3 and 11; alone offering any resistance to the bowling of H. J. Brown and Brewster who obtained respectively in the match 9 wickets for 37 runs and 8 for 40. It can therefore be readily imagined the batting was nothing more than a complete failure. The defeat, however, was taken in true sportsman-like fashion, and the Americans were royally entertained before leaving for home.

Next to the International match the visit of the Gentlemen of Ireland was the most important event of the year. The visitors opened at Kingston against fifteen of that town and district and were victorious by 10 wickets. Fifteen of Ottawa and district were next defeated by an innings and 56 runs, and after playing a drawn game with a fifteen of Orillia and district a team representing "All Canada" was defeated at Toronto Aug. 30th and 31st, by an innings and 86 runs. The scores were Canada, 114 and 49 (D. W. Saunders 4 and 21; A. Gillespie, 21 and 1; A. C. Allen, 11 and 6; W. J. Fleury, 17 and 5, and W. W. Jones, 14 and 2). Ireland 249. Out of this total J. P. Fitzgeral claimed 22, J. W. Hynes 62, J. Dunn 21, J. P. Maxwell 39, E. Fitzgerald 30, T. Tobin 40 and D. F. Gillman 17 not out. For Canada, Ogden got 5 wickets for 76 runs, and for Ireland J. W. Hynes obtained in the match 7 for 39. A return match was played but although slightly in favor of the Canadians it does not bear any weight as the Irishmen looked upon it as a "scratch game" and therefore did not exert themselves. After leaving Toronto the visitors played against 18 of Hamilton which resulted in a draw. They came to this country with a great reputation and, notwithstanding their easy victory over "Canada," which was only fairly represented to say the least, it cannot be said they startled the cricketers of this country. It is true they were a good all round team, but they did notbear comparison with the Gentlemen of England who visited the Dominion in 1886. Speaking individually of the performances of the team it would not be out of place to say that Hynes and Dunn were both excellent batsmen. The latter was especially brilliant and Hynes' was in every way sound and correct. Crowin their captain evidently possessed good powers as a batsman, but he did not "come off" and therefore no idea can be formed of his real merits. The bowling was only moderate and the fielding fair. There can be, however, no doubt that thevisit of the Irishmen did a great deal of good. It was generally noticed that the Canadians had a decided tendency to score faster than they should ever have dreamed of doing, and they consequently lost at the very outset all chances of winning the big match. Nextyear it is hoped the Toronto club, which is practically the M.C.C. of Canada, will be in a position to engage the services of a really first class professional and thus enable its members to receive the very best of training. The idea has not been definitely formed, but it is more than probable that it will be brought to a head.

The Toronto club has had a most successful season. Thirty-two matches were played 22 of which were won, only 3 were lost, and 7 drawn. The Club of course does not always place a really representative team in the field, and, therefore, the record is all the more creditable. The only match that was *really* lost was the game with Hamilton and the "ambitious city" men deserve a great deal of credit for this victory which was won by the narrow majority of 10 runs on the result of the first innings, the scores standing Hamilton 109, Toronto 99. The Club was also favored with a visit from the Seabright Club who were rather easily beaten by 10 wickets. The scores were Toronto 179 and 12 (for no wicket); Seabright 89 and 101. For the former P. C. Goldingham and A. C. Allen with 83 and 54 were the chief scorers and for the visitors Absolom made 31 and 15 Butler (pro) 9 and 38, McGregor 17 and 7, and Shippen 4 and 13. The visitors who were not particularly strong at the game were a capital lot of fellows socially; and made a great many friends during their two days visit in Toronto. In order to fill in the afternoon of the second day a return match was played which resulted in the Toronto men winning by 1 run, the score being 67 to 66. The wicket, owing to showers of rain, played "queerly" and the bowlers had the upper hand from the start. The visitors also played at Hamilton, Port Hope and Peterboro'. They won at the two former places but were defeated at the latter by 10 wickets. It may be of interest to point out the different big scores made by the Toronto club: 212 (for 9 wickets) *v.* Gooderham & Worts; 168 *v.* Brampton; 261 *v.* Parkdale; 238 *v.* Ottawa; 179 *v.* Seabright; 177 *v.* Trinity College School, and 215 (for 6 wickets) *v.* Rosedale. The principal batsmen of the year were A. H. Collins who scored over six hundred runs at an average of 28 per innings. W. J. Fleury,447 runs; average, 34.5. P. C. Goldingham, 294 runs; average, 24 and 6. D. W. Saunders, 24. Fleury was particularly successful, and was the only batsman to score a century, viz., 110, against Rosedale on July 14. The bowling averages have unfortunately been incorrectly kept, and therefore no proper statistics can be given Dickey, Godwin and Jones have, however, all been successful, and taken over 60 wickets apiece at an average cost of 6 runs per wicket.

Of the other clubs, East Toronto was by far the most successful. They won the championship of Ontario under the auspices of the Ontario Association, by handily defeating Pickering. The Ontario Association divides the different clubs which joins that institution into groups, and the champions of the different groups finally play off.

FOOTBALL.

The season, which has just fairly started, promises to be as successful, if not more so, than in any previous year. The visit of the Canadian team to Great Britain, and its success against the strongest clubs in England, Scotland and Ireland will have an important effect on the game in the Dominion. LACROSSE.

Speaking generally, it must be said that the past year in lacrosse circles has been one of progress, though the larger associations have been troubled a great deal by discussions arising out of charges of professionalism, and though it is certain that in some districts the evil has been at its worst, the greatest energy in endeavours to root it out has been displayed, and in many cases the efforts have been successful. In all parts of Canada, the game has been carried into new and broad territories; it has been played well in districts where it had never been seen before, and in the larger cities, though it has met with a slight decrease rather than with an increase in popularity, teams and individual players have developed a greater proficiency than ever before in the history of the national game. The slight unpopularity referred to is acknowledged on almost all hands to be the result of the inefficiency of the series system under which the clubs in the larger associations have been playing for some years back. This system is acknowledged on all hands to be utterly at variance with the principle of amateurism, and one under which the popularity of lacrosse has been dying slowly but surely. Everything points to a return to the challenge system modified to meet the more modern requirements of the game. With a return to a system under which the least possible tax will be put on the time and energies of the amateur player and under which every match carries the championship with it, private and public interest in lacrosse will revive, and the game will be established again firmly as the national game of Canada.

The season was commenced early in March, by the now famous trip of the Toronto Lacrosse Club's crack twelve, champions of the world for 1887, to England and Ireland. There they played fourteen games, in all of which they were successful. More significant features of the trip were the amount of good work done by the Toronto's in spreading a practical knowledge of the Canadian National game among the members of young English clubs, and the firm welding of the bonds of friendship between players on this and on the other side of the great waters.

The season in the Canadian Lacrosse Association has been marked more specially by the rise of the Brants of Paris to the position of champions, and by the greatest activity in the new districts. In the Senior Championship Series, the Brants occupy an honorable first place, having won 9 of the scheduled games and lost only one. The Athletics of St. Catharines are second, with 7 games won and 3 games lost; the Toronto's third, with 5 games won and as many lost; the Ontarios of Toronto fourth, with 4 games won and 6 games lost; and the Brantfords and the Beavers of Woodstock fifth and sixth respectively. Too much in praise of the faithful and brilliant work of the Brants during their successful season cannot be said.

The Intermediate Championship was played for in Toronto at the end of the season by the champions of the several districts. Orillia won it away from Brampton and Fergus. At a subsequent meeting of the Judicial Committee of the Association, the first two clubs were suspended to allow for the investigation of certain charges preferred by the third; and at the present writing the disputes arising from these charges, which are mainly to the effect that certain members of the several teams had been engaged with more than one club during the season, had not been settled.

In the National Amateur Lacrosse Association, the season has been perhaps the most unsatisfactory. Early in the year began unseemly bickerings as to the standing of the members of the several teams. It was well known that in Brockville and Ottawa the percentage of local players on the representative teams was infinitesimal. Charges were made freely and counter charges followed. The Montreal Lacrosse Club, the giants of 1886, had dropped out of the race to wait till the completion of their new grounds at Cote Ste. Antoine, and there remained to struggle for the pennant only the Shamrocks, the Ottawas, composed of the Ottawas and Capitals of the year before, the Cornwalls (champions), and the Brockvilles. Cornwall started out with a good lead. Brockville was expelled for playing men who had been disqualified as professionals by the Canadian Lacrosse Association, but was immediately reinstated on expelling the objectionable members. Cornwall, under the plea that Brockville's expulsion had been announced, failed to meet an engagement with the latter club, and was ruled out of the race for the season. Meanwhile Ottawa had retired because the Shamrocks refused to meet certain other players who had been disqualified as professionals by the Canadian Association. There then remained only two of the original four clubs and the farce was concluded by the Shamrock's hollow victory over Brockville. Toward the end of the season the Cornwalls and Shamrocks arranged a series of games, which virtually were to decide the championship of the Eastern Association. Cornwall won the two games played respectively in Cronwall and Montreal, and, therefore, has fairly entitled itself to the Championship.

The Intermediate Championship after a close contest between Sherbrooke, the Junior Montrealers, the Junior Shamrocks, and the Capitals of Ottawa, was won by the first named club, its perennial holders.

Though the Torontos and Brants both met clubs from the East, at home and abroad, no series of games has settled satisfactorily the question as to the respective strengths of the two great Associations.

In Manitoba the game is in the zenith of its popularity, and promises to remain there. The championship was won after an exciting contest by the club of the

Ninetieth Rifles of Winnipeg. The clubs from Winnipeg, Brandon, Plum Creek and Minnedosa, being worthy contestants.

Mr. Alfred Suckling, an old Toronto boy, suceeeded early in the summer in establishing healthy young clubs at Vancouver and Victoria in British Columbia. These two clubs played several games and bid fair to become most worthy exponents.

LAWN TENNIS.

Sept. 6th and 7th, the annual championship tournament of the Toronto Club was held when the "all comers" match was won by Mr. Wood of London, who beat Mr. Torrance of Brockville, 6-3, 7-5, 7-6, 9-7. Mr. Wood was thus entitled to play for the championship with Mr. Hyam, its holder. The latter, however, retained his laurels, defeating Mr. Wood, 7-5, 8-6, 6-2. In the doubles, Messrs. Wood and Davis beat Messrs. McKenzie and Kirkpatrick, 6-4, 6 2, 6-3.

THE TURF.

The past season has been an unusually brilliant one for the thoroughbreds, both on the flat and between the flags. The Ontario Jockey Club has as usual held the best meetings. The Spring meeting, which lasted two days brought together the pick of the Province breds and those bred across the border. The principal eveut of the meeting was the Queen's Plate, which was won by the 4-year-old bay colt Harry Cooper, by Long Taw—Maumee, who took up 120 pounds and had no difficulty in pulling off the 50 sovereigns given by Her Majesty. The horses were the best lot all through that have sported silk in Canada for many a year. Some of the principal stakes and the winners of them are:

YACHTING.

The important fixtures of the season were the regattas held under the auspices of the Lake Yacht Racing Association at Kingston, Belleville, Hamilton and Toronto. The *Whitewings*, the Hamiltou yacht, was uniformly successful in her class. The victory of the *Oriole* at the big Mackinac regatta was another big plum which Canadian yachtsmen plucked.

CANOEING AND PEDESTRIANISM.

The annual meet of the A. C. A., was held at Lake Couchiching, on July 31st. The different events were keenly contested, and on the whole, the meet was a big success.

Beyond a few "go as you please" races in Montreal Ottawa, and Toronto, during the summer, nothing occurred of note in the line of pedestranism.

CANADIAN PACIFIC RAILWAY.

ITS SURRENDER OF MONOPOLY RIGHTS.

The agreement executed during the Session of the Dominion Parliament, 1888, between the Federal Government and the Company provides for the termination of the restrictions contained in clause 15 of the original contract between the Government and the Company respecting charters for railways extending to the International boundary.

It will place the Company in a position to provide at a very low rate of interest the necessary capital required for permanent improvements of the railway, additional rolling stock and facilities of all kinds for its rapidly increasing traffic, so that the surplus earnings may not in future be absorbed for these purposes, but may be devoted to the payment of dividends to the shareholders.

The above agreement was sanctioned 22nd May, 1888.

By this Act, the Monopoly clause of the Act 44 Vict., chap. 1, is repealed. The Government of Canada may guarantee the payment of interest, until maturity, at three and one-half per cent. per annum on bonds of the Company, issued to an amount not exceeding fifteen millions of dollars, or its equivalent in sterling money; the principal of such bonds to be payable not later than fifty years from their date, and the principal and interest to be secured as set forth in the agreement in the schedule of this Act.

The Company will expend the proceeds of the sale of bonds to be issued, as stated in the schedule A of the said agreement:

1. On account of capital expenditure on main line	$5,498,000
2. For required rolling stock	5,250,000
3. For required improvements on the said main line	4,252,000
	$15,000,000

NOTE.—The expenditure on item 3 may be increased, and for that purpose the expenditure on either of the other items may be diminished.

"BY a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. EPPS has provided our breakfast-tables with a delicately-flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of

EPPS'S GRATEFUL COMFORTING COCOA

diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*On Diet, in 'The Civil Service Gazette.'*

HAZELL'S ANNUAL FOR 1889.

A Cyclopædic record of Men and Topics of the Day. Fourth Year of Issue. A Standard Book of Reference.

The Information upon every current topic is thoroughly reliable and contemporary with date of Publication.

—— SELECTED PRESS OPINIONS: ——

Times.—"This Cyclopædia is at once a Court Circular, a peerage, a Parliamentary guide and companion, a gazetteer, a statesman's year-book, an almanack, a clergy list, a legal, diplomatic, musical, dramatic, and social guide, and an obituary. It is especially satisfactory and full in dealing with all matters connected with constitutional history and social legislation. The articles on the British revenue, education, the income tax, the Land League, the land question, the last Reform Bill, bi-metallism the Home Rule Bill, trade, trade unions, technical education, the Indian Budget, and marine insurance, are full and trustworthy. This book has broken new ground among works of reference."

Standard. "The compilers may fairly claim that the 'Cyclopædia' is what it professes to be, a complete handbook for newspaper readers. . . Handy, cheap, trustworthy, and will not disappoint its purchasers."

Daily News.—"A most handy, well-printed, and convenient volume, particularly valuable to all who wish to read the newspapers with full understanding of what they read. . . Its little articles are models of condensation.'

THE TRUE AND NATURAL PRINCIPLE

FOR CLEANSING AND PRESERVING THE TEETH

∴ AND ∴

·· POLISHING THE ENAMEL, ··

IS NOW WELCOMED BY A CHORUS OF DENTISTS AND PHYSICIANS IN ALL PARTS OF THE UNITED STATES AND CANADA, AS ITS PERFECT RESULTS ARE KNOWN..

A Perfect Polisher

of the Enamel.

A Gentle Stimulant to the Gums. A Thorough Cleanser of the Teeth,

Avoids all the well-known Irritation, Discomforts and Injuries of Bristles. A Blessing to Adults—A Delight to Children.

More Economical. More Cleanly than Harsh Bristles.

What Leading Dentists say:

DR. W. GEO. BEERS, L.D.S., Montreal, writes: "It ought to be a luxury as well as a stimulant to use the Felt Brush constructed as it is, and I believe that with that and the Floss Silk between the teeth nothing better can be relied upon."

DR. GEO. F. SMITH, D.D.S., Chicago, Ill., writes: "I find it very satisfactory, and shall recommend it to my patients, especially to juveniles."

DR. J. P. CARMICHAEL, D.D.S., Milwaukee, Wis., writes: "The more I use your Ideal Felt Tooth Polisher the more I am favorably impressed with it. As a polisher for the teeth and a means of hardening the sensitive gums it has no equal."

DR. CHAS. H. GOODRICH, D. D. S., St. Paul, Minn., writes: "Your invention possesses a feature which seems to me essentially important, viz., the enforced cleanliness arising from periodical change of the Felts. After a short time a tooth brush becomes foul and hurtful, but all this the Felt Brush remedies."

DR. F. A. COOKE, D. D. S., Boston, writes: "In my judgment it meets just the desired need. After using The Polisher my teeth have a smooth, clean feeling that can not be obtained with the bristle brush."

"A UNIVERSAL BLESSING."

The *American Analyst* of New York thus describes the Ideal Felt Tooth Polisher in use: "It polishes the enamel rapidly and easily, cleanses the teeth, reaches the sides and angles WHERE BRISTLES DO NOT PENETRATE; does not excite the most sensitive teeth or irritate the gums. * * From an economic standpoint is not one-tenth so dear as any other."

FREEMAN'S CHLORODYNE.

THE ORIGINAL AND ONLY TRUE.

IT IS THE GREATEST MEDICAL DISCOVERY OF THE PRESENT CENTURY.

AND IS REGARDED AS A BOON TO MANKIND.

It is the best known Remedy for Coughs, Colds, Consumption, Whooping Cough, Bronchitis and Asthma. It effectually checks and arrests those too often fatal diseases, Diphtheria, Diabetes, Fever, Croup. Ague, &c.

It acts like a charm in DIARRHŒA, and is the only known specific in CHOLERA and DYSENTERY. It effectually cuts short all attacks of EPILEPSY, HYSTERIA, PALPITATION, CONVULSIONS and SPASMS, It is the only Palliative in RHEUMATISM, GOUT, CANCER, TOOTH-ACHE, NEURALGIA, SCIATICA, LUMBAGO, &c.

It rapidly relieves pain from whatever cause, allays the irritation of Fever, soothes and strengthens the system under exhaustive diseases, restores the deranged functions, stimulates healthy action of the secretions of the body, gives quiet and refreshing sleep, and marvellously prolongs life. It may be taken by old and young at all hours and times, according to the directions.

It is extensively used by Medical Men in their official and private practice, at home and abroad, who have given numerous written testimonials of its wonderful efficacy.

Sold by Chemists and Patent Medicine Dealers all over the world in bottles 1s. 1½d.; 2 oz., 2s. 9d.; 4 oz., 4s. 6d.; half-pints, 11s., and pints 20s. each, and by the Inventor, RICHARD FREEMAN, 70, Kensington Park Road, London, S.E.

Purchasers are CAUTIONED not to have palmed upon them any substitute. See that the Trade Mark, "THE ELEPHANT," is on the wrapper, &c., and the words "FREEMAN'S ORIGINAL CHLORODYNE" are engraved on the Government Stamp—which is the only TRUE CHLORODYNE.

N.B.— Lord Chancellor Selborne, Lord Justice James and Lord Justice Mellish, decided in favour of FREEMAN'S ORIGINAL CHLORODYNE, and against Brown and Davenport, compelling them to pay all costs in the suits. See "TIMES" of July 24, 1873.

ELECTRO-THERAPEUTIC INSTITUTION

197 JARVIS STREET, TORONTO.

For the Treatment and Cure of Diseases not cured with medicine or other methods of using Electricity with the ordinary Batteries and Electrical Appliances of little or no value (curatively.)

Patients treated either at the Institution, their homes or in private apartments, for diseases Acute, Chronic, Obscure, Nervous or others. We employ superior medical skill for Special Diseases—the Eye, Ear, Nose, Throat, &c.—who have had experience in London and other Hospitals. FEMALE WEAKNESSES.—Uterine Diseases most successfully treated with Electricity; also, "Nervous Debility," (a lack of nerve force.)

Mrs. Cheeny, late of New York, assists in the Ladies Department. (Competent Nurses, &c.)

With the proper knowledge of compounding the best qualities of Electricity and the use of our new improved Medical Batteries the subtle fluid is made to obey the mandates of the will through nature's fixed laws, and thus act upon the most obstinate forms of disease, speedily changing the condition to health and vigor, and as kindly and quietly as the genial rays of the sun in spring-time mellow the frozen earth and infuse new life in the soil.

The mystery in making such marvellous cures is simply in knowing how to utilize the most potent and effective means in the world. Evidence in abundance of the highest type confirming all and more than we claim for this mighty agent properly manipulated from our superior machine. (A complete handbook with each Battery.) See the Electric Age for testimonials and references, such as Hon. T. B. Pardee, Sarnia; Chas. Stark, Esq., Merchant, 52 Church St., Toronto; Rev. G. M. Milligan, 384 Sherbonrne St., Toronto; Rev.
